

Harshal Kakaiya

Entry-level Data Scientist

Looking for a Beginner's position to develop and expand my technical expertise that I have acquired over the past four years. I won the campus quiz competition while earning a B.Engr degree with an information technology concentration. My goal is to make use of my technological abilities for some positive things in my life. A tech enthusiast willing to tackle any task with attention to detail while simultaneously making a positive impact on society.

PERSONAL PROJECTS

Voice Assistant using Python (2022)

- <https://github.com/harshalk612/ProjectAlpha>
- Developed using **Python** and libraries like **Speech Recognition**, **PyWHATKIT**, **PYTTSX3**, **ECAPTURE**, etc.
- **Tested** functionality of the Project by myself.
- It can do 20 different types of tasks just by giving voice commands such as **Searching for weather**, **playing songs on YouTube**, **Capturing photos**, **sending a WhatsApp message only using speech**, etc.
